

OUTDOOR ORNAMENTAL PLANT NURSERY – YALOVA, TÜRKİYE

Plant Catalogue 2026

Shrubs, conifers, shaped Mediterranean trees and
ornamental grasses. From production to project since 1993.

Growing in Yalova since 1993

Emre Peyzaj began growing ornamental plants in 1993 in Tavşanlı village, Yalova, under the name **Emre Çiçekçilik Peyzaj**. In 2012, as part of the Yalova Garden project, the company took its present identity as **Yalova Emre Peyzaj**.

Specialising in outdoor ornamental plants and shrubs, we provide production and supply support to landscape architects, contractors and public projects, and export to the Middle East, Africa and the Turkic republics.

Our plants are grown in the **Yalova Garden A.Ş.** production cluster on the Yalova TİGEM state farm, where 43 specialist companies share 1,541,000 m² of open-field and protected production; Emre Peyzaj is one of the cluster’s partner companies.

Euonymus 'Bravo' — ball form

Leyland cypress — young screening plants

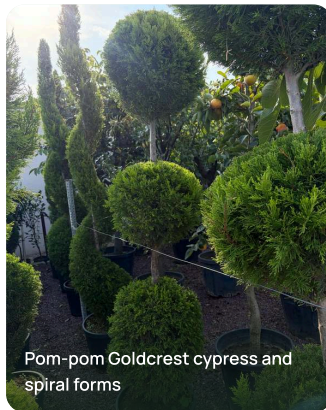

Euonymus 'Aurea' — ball form

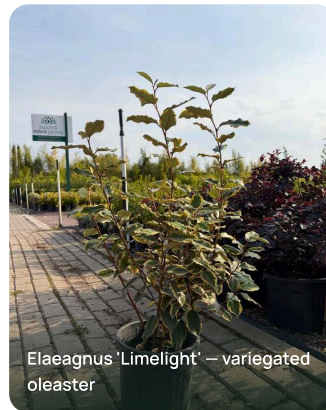

Fig — standard form

Photinia 'Red Robin' — red flush

Pom-pom Goldcrest cypress and spiral forms

Elaeagnus 'Limelight' — variegated oleaster

Buxus 'Faulkner' — boxwood

Euonymus 'Green Spire' — columnar

Leyland cypress — screening rows

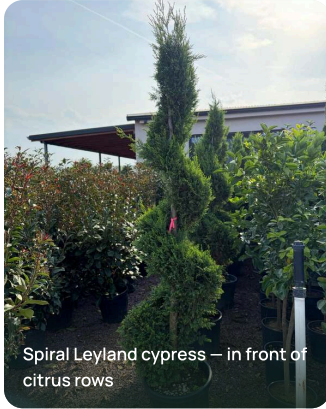

Lavandula x intermedia — in flower

Euonymus 'Kathy' — silver-edged spindle

Scenes from our nursery (2)

October 2026 — all photographs taken on our own production plots.

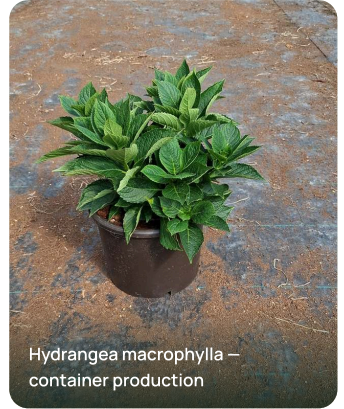

Spiral Leyland cypress — in front of citrus rows

Standard citrus — container production

Photinia 'Red Robin' — large container

Hydrangea macrophylla — container production

Phyllostachys aurea — golden bamboo

Euonymus 'Microphyllus Pulchellus' — dwarf spindle

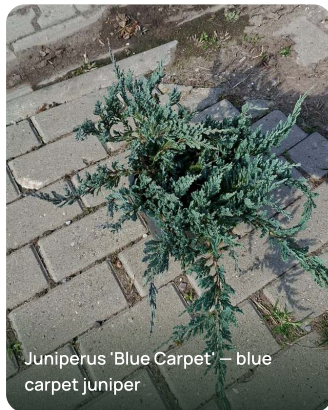

Abelia x grandiflora — glossy abelia

Mandarin — standard, fruiting

Quince — standard, fruiting

Juniperus 'Blue Carpet' — blue carpet juniper

Carex 'Evergold' — variegated sedge

Olea europaea — shaped olive

Rosmarinus officinalis — rosemary

Nandina 'Fire Power' — autumn colour

Juniperus 'Old Gold' — golden juniper

Acorus gramineus — golden sweet flag

Shrubs & Flowering Plants

Photinia × fraseri 'Red Robin'

RED ROBIN PHOTINIA

A fast-growing evergreen shrub whose glossy, bright red new growth brings colour all season. One of the most specified plants for hedges, screens and specimen use.

Height	2–3 m	Light	Full sun / Part shade
Water	Moderate	Pot	9×9×8 cm liner

Photinia × fraseri 'Little Red Robin'

DWARF PHOTINIA 'LITTLE RED ROBIN'

The compact form of Red Robin; ideal for low hedges, borders and containers. Shapes easily with light pruning.

Height	0.8–1 m	Light	Full sun / Part shade
Water	Moderate	Pot	9×9×8 cm liner

Photinia × fraseri 'Robusta Compacta'

PHOTINIA 'ROBUSTA COMPACTA' (SEMI-DWARF)

A densely branched, robust Photinia with large, leathery leaves. More tolerant of heat and wind than the other forms.

Height	1.5–2 m	Light	Full sun / Part shade
Water	Moderate	Pot	9×9×8 cm liner

Viburnum tinus

LAURUSTINUS

An evergreen shrub that brings early colour with white-pink flowers from late winter into spring. Ideal for group planting and hedging.

Height	2–3 m	Light	Full sun / Part shade
Water	Moderate	Pot	9×9×8 cm liner

Viburnum lucidum

GLOSSY LAURUSTINUS

A vigorous, fast-growing viburnum with large glossy leaves. Excellent for tall hedges and screens; white flowers in spring.

Height 2.5–3.5 m

Light Full sun / Part shade

Water Moderate

Pot 9×9×8 cm liner

Nerium oleander nana 'Petite Salmon'

DWARF OLEANDER (SALMON)

A dwarf oleander flowering in salmon tones all summer. Highly tolerant of drought and coastal conditions; a staple of median strips and mass planting.

Height 1–1.5 m

Light Full sun

Water Low / Moderate

Pot 9×9×8 cm liner

Nandina domestica 'Fire Power'

DWARF HEAVENLY BAMBOO 'FIRE POWER'

Foliage emerges light green in spring and turns flame red in autumn and winter. A compact, easy-care border plant decorative in all four seasons.

Height 0.5–0.6 m

Light Full sun / Part shade

Water Moderate

Pot 9×9×8 cm liner

Rosmarinus officinalis

ROSEMARY

Both a landscape and a culinary plant, with aromatic foliage and blue flowers. Very drought tolerant; suited to borders, rock gardens and slopes.

Height 0.6–1 m

Light Full sun

Water Low

Pot 9×9×8 cm liner

Abelia × grandiflora

GLOSSY ABELIA

A long-season shrub with an elegant arching habit and white-pink flowers from summer right through autumn. Valuable for bees and butterflies.

Height	1.5–2 m	Light	Full sun / Part shade
Water	Moderate	Pot	9×9×8 cm liner

Aucuba japonica 'Variegata'

SPOTTED LAUREL

The most decorative shrub for shade, with large glossy gold-spotted leaves. Reliable in difficult spots such as north-facing walls and under trees.

Height	1.5–2 m	Light	Shade / Part shade
Water	Moderate	Pot	9×9×8 cm liner

Elaeagnus × ebbingei 'Limelight'

VARIEGATED OLEASTER 'LIMELIGHT'

Cream-yellow variegated leaves with silvery undersides give year-round sparkle; exceptionally tolerant of wind, salt and drought. Ideal for hedges and screens in coastal and exposed sites; autumn flowers are fragrant.

Height	2–3 m	Light	Full sun / Part shade
Water	Low / Moderate	Pot	Container

Buxus microphylla 'Faulkner'

BOXWOOD 'FAULKNER'

A dense boxwood with small glossy leaves; the best choice for balls, cubes and border hedging. More tolerant of box moth than the classic species.

Height	0.8–1 m	Light	Sun / Shade
Water	Moderate	Pot	9×9×8 cm liner

REPRESENTATIVE IMAGE

Callistemon laevis

BOTTLEBRUSH

An exotic-looking shrub with bright red brush flowers, perfectly suited to Mediterranean climates. Striking as a specimen and in warm gardens.

Height	2–3 m	Light	Full sun
Water	Low / Moderate	Pot	9×9×8 cm liner

Euonymus japonicus 'Aurea'

GOLDEN JAPANESE SPINDLE

The classic spindle with golden variegated foliage that brightens any garden. Tolerant of coastal and urban conditions; widely used for hedges and borders.

Height	1–1.5 m	Light	Full sun / Part shade
Water	Moderate	Pot	9×9×8 cm · 2 per pot

Euonymus japonicus 'Bravo'

SILVER-EDGED JAPANESE SPINDLE 'BRAVO'

A spindle with silvery leaves edged in cream-white. Creates contrast against dark green plants; hardy and easy to maintain.

Height	1–1.5 m	Light	Full sun / Part shade
Water	Moderate	Pot	9×9×8 cm · 2 per pot

Euonymus japonicus 'Kathy'

SILVER-EDGED JAPANESE SPINDLE 'KATHY'

A compact spindle with small oval leaves edged in silver-white. Denser and slower than 'Bravo'; gives a year-round light accent in low hedges, borders and containers.

Height	0.8–1.2 m	Light	Full sun / Part shade
Water	Moderate	Pot	Container

Euonymus japonicus 'Green Spire'
COLUMNAR JAPANESE SPINDLE 'GREEN SPIRE'

A dark green spindle with an upright, narrow columnar habit for tight spaces, entrance accents and low-to-medium hedges. Needs little pruning.

Height	1.5–2 m	Light	Full sun / Part shade
Water	Moderate	Pot	9×9×8 cm · 3 per pot

Euonymus japonicus 'Microphyllus Pulchellus'
DWARF JAPANESE SPINDLE (GREEN)

A small-leaved, very dense dwarf spindle. Chosen for low borders, lettering and pattern planting, and as a boxwood alternative.

Height	0.5–0.8 m	Light	Full sun / Part shade
Water	Moderate	Pot	9×9×8 cm · 3 per pot

Euryops pectinatus
GREY-LEAVED EURYOPS

Bright yellow daisy flowers almost year-round above silvery green foliage. Ideal where instant impact is needed and in containers.

Height	0.8–1 m	Light	Full sun
Water	Low / Moderate	Pot	9×9×8 cm liner

Ilex × 'Nelly R. Stevens'
HOLLY 'NELLIE R. STEVENS'

Decorative in all seasons with dark glossy leaves and red berries; its natural conical habit suits specimen and tall hedge use.

Height	3–4 m	Light	Full sun / Part shade
Water	Moderate	Pot	9×9×8 cm liner

Loropetalum chinense 'Black Pearl'
CHINESE FRINGE FLOWER 'BLACK PEARL'

A modern landscape shrub whose deep burgundy-black foliage and fuchsia-red fringe flowers create strong contrast.

Height	1-1.5 m	Light	Full sun / Part shade
Water	Moderate	Pot	9×9×8 cm liner

Lavandula × intermedia
LAVANDİN (LAVENDER)

A classic for borders, mass planting and dry gardens, with purple flower spikes and unmistakable scent. Flowers May to August; bee friendly.

Height	0.6-0.8 m	Light	Full sun
Water	Low	Pot	9×9×8 cm liner

Hydrangea macrophylla
BIGLEAF HYDRANGEA

The favourite of summer gardens with its large mophead flowers. Prefers part shade and moist, well-drained soil; striking in containers and shady borders.

Height	1-1.5 m	Light	Part shade / Shade
Water	High	Pot	—

Conifers

× *Cupressocyparis leylandii*

LEYLAND CYPRESS

Turkey's most widely used screening and windbreak plant. Very fast growing, forming a dense green wall in a short time. Grown from cuttings.

Height 15–20 m

Light Full sun / Part shade

Water Moderate

Pot 9×9×8 cm · from cuttings

Thuja occidentalis 'Smaragd'

EMERALD ARBORVITAE 'SMARAGD'

The most popular arborvitae, with a narrow conical habit and emerald foliage that holds its colour through winter. Forms a dense screen without pruning; ideal for boundary hedges and entrance accents.

Height 3–5 m

Light Full sun / Part shade

Water Moderate

Pot Container

× *Cupressocyparis leylandii* (spiral form)

SPIRAL LEYLAND CYPRESS (TOPIARY)

A hand-trained spiral topiary that creates an architectural accent at entrances, on terraces and as a specimen. Dense green texture year-round; the form is easily maintained with trimming.

Height 1.5–2.5 m

Light Full sun

Water Moderate

Pot Container

Cupressus macrocarpa 'Goldcrest' (top form)

POM-POM MONTEREY CYPRESS 'GOLDCREST' (TOPIARY)

A lemon-scented cypress with light yellow-green foliage, trained into single or tiered balls on a clear stem. A classic for gateways, container displays and symmetrical designs.

Height 1.2–2 m

Light Full sun

Water Moderate

Pot Container

Juniperus 'Old Gold'

GOLDEN SPREADING JUNIPER 'OLD GOLD'

A spreading juniper providing year-round colour with its golden texture. A maintenance-free ground cover for rock gardens, banks and wide borders.

Height	0.6–0.8 m (spread 1.5–2 m)	Light	Full sun
Water	Low	Pot	9×9×8 cm liner

Juniperus squamata 'Blue Carpet'

BLUE CARPET JUNIPER

A carpeting juniper with steel-blue needles. Ideal for colour contrast and covering large areas in modern landscapes.

Height	0.3–0.5 m (spread 1.5–2 m)	Light	Full sun
Water	Low	Pot	9×9×8 cm liner

Trees & Citrus

Olea europaea

OLİVE TREE

The symbol of Mediterranean gardens with its characterful trunks and silvery foliage. Our container-grown shaped olives are ready for terraces, entrances and specimen planting.

Height Shaped / standard **Light** Full sun
Water Low **Pot** Container

Laurus nobilis

BAY LAUREL

Native to Yalova; a noble Mediterranean classic with aromatic foliage and dense texture, suited to hedging, topiary (ball/pyramid) and specimen use.

Height 2-4 m **Light** Sun / Part shade
Water Moderate **Pot** Container

Ficus carica

FIG TREE (STANDARD)

A drought-tolerant fruit tree with Mediterranean character, large lobed leaves and a silvery trunk. As a standard it gives both shade and fruit on terraces, in courtyards and urban gardens.

Height 3-6 m **Light** Full sun
Water Low / Moderate **Pot** Container

Cydonia oblonga

QUİNCE TREE (STANDARD)

A deciduous fruit tree with pale pink spring blossom and large, golden, fragrant fruit in autumn. As a standard it is both ornamental and productive in gardens and courtyards; cold hardy.

Height 3-5 m **Light** Full sun
Water Moderate **Pot** Container

Citrus limon

LEMON TREE

A citrus that lives in containers all year with glossy leaves, fragrant flowers and fruit. Ideal for terraces and conservatories.

Height 2-3 m
Water Moderate

Light Full sun
Pot Container

Citrus sinensis

ORANGE TREE

A decorative citrus tree with dark green foliage and orange fruit. Used as a specimen in Mediterranean-style gardens and terraces.

Height 2-3 m
Water Moderate

Light Full sun
Pot Container

Citrus reticulata

MANDARIN TREE

One of the best citrus for containers and small gardens thanks to its compact form and heavy cropping. Rewards twice, with flower scent and fruit colour.

Height 2-3 m
Water Moderate

Light Full sun
Pot Container

Ornamental Grasses & Bamboo

Phyllostachys aurea

GOLDEN BAMBOO

A bamboo with yellow canes and exotic texture, forming fast screens and backdrops. Indispensable in modern and Far-East inspired designs.

Height	3–5 m	Light	Sun / Part shade
Water	Moderate / High	Pot	Container

Acorus gramineus

JAPANESE SWEET FLAG

An ornamental grass for watersides and damp areas with yellow-green grassy foliage. Forms a bright, even texture in mass planting.

Height	0.2–0.3 m	Light	Sun / Part shade
Water	High	Pot	—

Carex morrowii

JAPANESE SEDGE

A shade-tolerant, soft-textured ornamental grass. Provides effortless green texture under trees and in modern mass planting.

Height	0.3–0.4 m	Light	Part shade / Shade
Water	Moderate	Pot	—

Carex oshimensis 'Evergold'

VARIEGATED SEDGE 'EVERGOLD'

An elegant sedge whose cream-yellow striped leaves light up shady corners. Used in borders, rock gardens and container arrangements.

Height	0.2–0.3 m	Light	Part shade
Water	Moderate	Pot	—

Let's work together on your project
